

LAKE WORTH STRATEGIC MASTER PLAN

LAKE WORTH, FLORIDA

In November 2004, the City of Lake Worth authorized Iler Planning and its team of urban design, transportation, infrastructure and community facilitation specialists to develop solutions of the City's land use, zoning, design and community improvement needs.

- Involve all ethnic and economic groups.
- Preserve the diversity and variety of architecture, public space, parks, and other public space.
- Preserve and enhance pedestrian environment.
- Consider development with respect to the equitable treatment of all ethnic and economic groups.
- Use natural resources wisely.
- Enhance natural systems, including air and water quality, and energy efficiency.
- Consider the validity of all lifestyles, including alternative and ethnic and economic attitudes.
- Consider the evolution of the city.
- Enhance cultural diversity.
